SPIRO® CARE CONTRACT

The Spiro® Care Contract guarantees an annual inspection on your Spiro® machines, as well as a recommendation on how to optimize your investment through a service, repair, and/or upgrade with original Spiro® parts. In addition, your operators can profit from tips and feedbacks with respect to the best usage and maintenance of your Spiro® machinery to prevent breakdowns and continuously achieve a high output quality.

Between Spiro International SA,
hereinafter mentioned as "Spiro"
and

Company: _____
Address: _____
Country: _____
Contact Person: _____
E-Mail: _____
Tel: _____
hereinafter mentioned as "Customer"

Valid as from: _____ ClientNr: _____

CERTIFICATE

Valid for 2020

Producer: **Company Name**

The producer has the following original machines from
Spiro International SA:

- **Machine 1**
- **Machine 2**
- **Machine 3**

To sustain maximum production quality, capacity and reliability of the Spiro® machines the
producer is in possession of the Spiro® Care Contract.
The machines are inspected annually by an authorized service engineer from
Spiro International SA.

The company XXX fulfills the requirements to produce spiral ducts of the class D tightness.

- Special discount on spare parts and work**
- Warranty on spare parts**
- Priority service on breakdown**
- Condition report on your machine**
- Remote technical support free of charge**
- Inspection Visit**
- Spiro® Care Contract Exclusives**

SPIRO® T-BOX RENTAL / PURCHASE VERSIONS

Rental version:

When you need help or support to update the software on your Spiro® machine. Whether it involves switching to a new PLC, resetting the PLC during a battery replacement, updating a new HMI/screen, or any other software update on the machine.

The rental fee includes 2 hours of remote support from one of our in-house engineers.

Purchase version:

If you, as a customer, have multiple Spiro® machines, it often makes sense to have your own portable Spiro® T-box that you can use on all machines running the Spiro® operating system.

This way, you won't have to rent a box, and support can be provided more quickly and efficiently to get your production up and running again.

SPIRO® MACHINE REBUILDS

TUBEFORMER

Upgrade your Spiro® Tubeformer to the latest control system.

Your Spiro® Tubeformer has served you well for many years and now it's right time to give it some attention. Electrical components are developing rapidly and soon it may become difficult for us to support your older models of disklays. Take the opportunity to let our experienced service engineers perform a display upgrade to the latest technology. The existing control panel will be replaced, including buttons, display, potentiometer, cabling, etc.

Benefits

- State of the art touch screen with unique Spiro® HMI Control system
- Panel plate with easy symbols and buttons protected for rough environment.
- Multilingual – change language with only a button.
- QR code – download electrical drawing for your machine direct from display.
- Clean-up in electrical cabinet – only Spiro® original parts supported.
- Prepared for Spiro® Connect – our own developed entrance into Industry 4.0
- Prepared for Remote Access – requires a Spiro® T-box.

Your Trust is our Drive – since 1956

Spiro International SA, Industriestrasse 173, 3178 Bollingen | info@spiro.ch | www.spiro.ch

Complete electrical rebuild of Spiro® Tubeformer 1602.

Your Tubeformer 1602 has served you well for many years and now it's the right time to give it some attention.

Take the opportunity to have our experienced Spiro® service engineers perform a complete electrical upgrade of your machine so that we together can continue our journey into the future with the latest technology.

Benefits

- State of the art touch screen with unique Spiro® HMI Control system.
- Panel plate with easy symbols and buttons protected for rough environment.
- Multilingual – change language with only a button.
- QR code – download electrical drawing for your machine direct from display.
- Prepared for Spiro® Connect – our own developed entrance into Industry 4.0
- Prepared for Remote Access – requires a Spiro® T-box.
- Complete new electric cabinet with new PLC, Frequency Converter, transformers etc.
- As option: Spiro® FLEX-control for ergonomic and easy access to all positions.

Your Trust is our Drive – since 1956

Spiro International SA, Industriestrasse 173, 3178 Bollingen | info@spiro.ch | www.spiro.ch

GORELOCKER COMBI-T

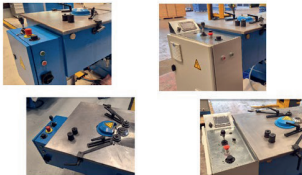

Complete electrical rebuild of older Gorelocker Combi-T.

Now is the perfect time to update your older Gorelocker Combi-T to the new operating system we just launched.

Take the opportunity to have our experienced Spiro® service engineers perform a complete electrical upgrade of your machine so that we together can continue our journey into the future with the latest technology.

Benefits

- State of the art touch screen with unique Spiro® HMI Control system.
- Panel plate with easy symbols and buttons protected for rough environment.
- Multilingual – change language with only a button.
- QR code – download electrical drawing for your machine direct from display.
- Prepared for Spiro® Connect – our own developed entrance into Industry 4.0.
- Prepared for Remote Access – requires a Spiro® T-box.
- Brand-new electrical cabinet, complete with new components.
- Revolutionary Teach-In functionality that records your process and lets the machine repeat it exactly.

Your Trust is our Drive – since 1956

Spiro International SA, Industriestrasse 173, 3178 Bollingen | info@spiro.ch | www.spiro.ch

SPIRO® MACHINE REBUILDS

SPIRO® STITCHWELDER

Complete electrical rebuild of older VSTW-Stitchwelder.

Your Stitchwelder has served you well for many years and now it's the right time to give it some attention.

Take the opportunity to have our experienced Spiro® service engineers perform a complete electrical upgrade of your machine so that we together can continue our journey into the future with the latest technology.

Benefits

- State of the art touch screen with unique Spiro® HMI Control system.
- Panel plate with easy symbols and buttons protected for rough environment.
- Multilingual – change language with only a button.
- QR code – download electrical drawing for your machine direct from display.
- Prepared for Spiro® Connect – our own developed entrance into Industry 4.0.
- Prepared for Remote Access – requires a Spiro® T-Box.
- Complete new electric cabinet with new PLC, Frequency Converter, transformer etc.
- New welding rollers, both upper and lower – Spiro® Mercury Free solution
- Filter and liquids for the cooling unit – *If you don't have a Spiro® original cooling unit, we recommend buying a new one.*

OLD MACHINE WITH BUTTONS AND POTENTIOMETERS

Your Trust is our Drive – since 1956

Spiro International SA, Industriestrasse 173, 3178 Böllingen | info@spiro.ch | www.spiro.ch

TWIN SEAM – DUCTLINE

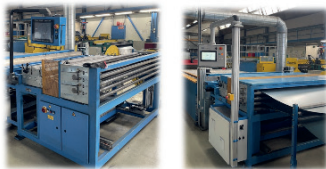

Complete electrical rebuild of Twin Seam Ductline.

Your Twin Seam Ductline has served you well for many years and now it's the right time to give it some attention.

Take the opportunity to have our experienced Spiro® service engineers perform a complete electrical upgrade of your machine so that we together can continue our journey into the future with the latest technology.

Benefits

- State of the art touch screen with unique Spiro® HMI Control system.
- Panel plate with easy symbols and buttons protected for rough environment.
- Multilingual – change language with only a button.
- Spiro® FLEX control for ergonomic and easy access to all positions.
- QR code – download electrical drawing for your machine direct from display.
- Prepared for Spiro® Connect – our own developed entrance into Industry 4.0.
- Prepared for Remote Access – requires a Spiro® T-Box.
