

# CLINCHING ROLLER FORK

www.spiro.ch

## Quick Change Clinching Roller Fork - Improve Your Operation Time on Your Spiro® Tubeformer

Spiro International SA is working hard to continuously improve and fine-tune the functionality of their machinery range. All Spiro® Tubeformers (excluding Alpha range) can now be upgraded with a quick change clinching roller fork. This new design drastically reduces the change over time and makes repeated angle and position adjustments obsolete.

### Benefits

- » Reduces change over time from several minutes to few seconds
- » Improves operation time
- » No more angle and position adjustments required on the clinching roller
