

PLASMAFEEDER

Equip your workshop with a Spiro® Plasma Feeder.

Use the Plasma Feeder to increase your productivity and save material. Supply your Plasmacutter directly from a coil line (2 or 4 decoilers), including sheet selector.

Unique Features:

- Increase your Productivity
- Save Material
- Comes with 2 or 4 Decoilers
- Includes Sheet Selector

CURVECUTTER DELTA 1500

This machine is specially designed for cutting out segments of highest accuracy from a blank (i.e. bends, flat oval bends and domes).

The Curvecutter Delta 1500 is a suitable machine for a high production line together with the Spiro® Roll-former, Stitchwelder and Gorelocker.

Unique Features:

- Select from a wide range of programs ranging from 100 to 1500 mm diameter
- Simple input for circular or flat-oval bends, angle cuts and other customized items
- Accurate cutting of segments with high repeatability due to high-tech servo motors
- No burrs and no hardening of the edge as a result of cutting with 4 roller-shears
- Efficiency: 1 elbow 200 mm with 4 segments is cutting in 1 path within 15 seconds
- Output: 560 segments / hour – size 315 mm / 90°
